[For the Pres Democrat.] A Public Nuisance.

If there is a lower depth of infamy than that into which J. R. Sharpetein had before sunk, he certainly reached it in the Issue of his sourrilcu: and abandoned sheet of yesterday .-The lay (Sunday) was peculiarly appropriate for the extra out-pouring of mingled mendacity, it decency, and malignity by one whose only relig on is blackgurdism, and whose devotions are given only to the " Pather of lies."

This blatant and apostate free soiler, this political scavenger, this fitting advocate of Border luffianism democracy, this dirty tool of men vho are ashamed of, and displie him, day after day, throughout the present campaigr, has retailed his profamity, his lies, his sulger abuse of our best citizens, his outrages upon all honest sentiment, and decent feeling, and lis profligate and unblushing avowal of the want of all political principle, until the News has become a steach in the nostrils of the public, and a disgrace to the party it supports .--Not content with heaping insult and slander upon respectable ladies of the city, whom he calls 'old withered hags,"" mendicants," &c.. and v hom he accuses of begging cold victuals for Kansas, and then perverting the funds obtained from them to other uses-he takes courage from the impunity which he enjoys in common with a small black and white four footec animal-that of being safe from the eastigation of men who would not dirty their hands with the odoriferous scoundrel. He now a sails, with opproblems epithets, and vulgar al use, the husbands of those ladies, business n en, and gentlemen of Milwaukee, for the high and mighty crime of calmly and in decorous h nguage expressing their honest preferonce of John F. Potter to Jackson Hadley as Representative to Congress from this district, without first obtaining his consent.

In a miscrable and senseless burlesque (whose coarse less is unredeemed by a scintilla of wit) apon the recent circular of our business men. He throws contempt and ridicule upon their occupations, insignations upon their credit, slurs apon t teir honesty, and insults upon their pertons.

By the use of phraseology which every one can un lerstand, he applies to respectable gens tlemen such epithets as the following: - II. Crockerdile with tears," " Big Hotel, help me build," " Leather Headed Co." " Fusa' oil for Nigger wool," " Winged Undertakers," " Sugar and Terrified niggers," " Itch ointment & Co.," "A bad oyster," "Peter Funk," "Race course sawbones," &c.

We tell this Sharpstein that he may carry his audicity and brazen impudence too far,-That the sudden inspiration of some honest boot may find vent in kicking this yelping our to his kinnel. If a low fellow can find no more congenial occupation than that of throwing dirt it decent people, it may become necess force until January 1, 1858. bolder but one, voted, establishes slavery in Kanass:

The bill known as Dunn's Bill says the Concord Independent (Democrat) is entitled of bill to reorganize Kanass." It consists of 24 sections, providing for organizing a regular Schooner Toledo, Saccined, Muskegon, Sc sections, providing for organizing a regular government there in place of the Border Ruffian government now there prevailing. And after making all necessary provisions, in the first 23 sections, for the establishing of "law and or der," without any reference to slavery, the 24th section distinctly and in terms repeals that portion of Kansas-Nebraska bill which abrogated the Missouri Compromise line, and says;

"Said line is hereby revived and declared to be in full force within the territories of Kansas and

Provided, however, that any persons LAW-FULY held to service in either of said Territories shall not be discharged from such service BY REASON OF SUCH REPEAL revival of said eight section, IF such person shall be permanently re-moved from such Territory or Territories prior to the first day of January, 1858; and any child or children born in either of said Territories, of any female LAWFULY held to service, if in like manner removed without said Territories before the expiration of said date, shall not be by reason of anything in this act, emancipated from any service it MIGHT HAVE OWNED HAD THIS ACT NEVER BEEN PASSED; and provided futher, that any person LAWFULY held to ser vice in any other State or Territory of the United States, and escaping into either of the Territories of Kansas or Nebraska may be reclaimed and removed to the person or place where such service is due, under any law of the Unis ted States which shall be in force upon the subi ject. Here is every word, syllable and letter, that

refers to slavery in the whole bill. First, it prohibits "slavery and involuntary servitude forever," in both the territories of Kansas and Ne. braska and then provides that that probibtion shall not interfere with any LAWFUL rights al. ready acquired and existing under the laws now in force in said territories; Provided, that no slave shall exist in said territories after January 1, 1858. There is not the color for a pretence that the bill catablishes or austains slavery for a single minute. It merely provides that is there shall be found in said territories persons "lawfully held to service," such person "shall not be discharged by reason of such repeal, if such person shall be removed prior to January 1, 1858." It futher provides that "any child born of any female laufully held to service may be removed prior to January 1, 1858, just as it might have been "had this act never been passed." It also provides that the laws of the United States now in force in said territories may continue in force.

This is all. Slavery is prohibited forener in Kansas and Nebraska. But the law, so far as it relates to persons already "lawfully held to service" in said territories, does not go into ful of Congress, in voting for this bill voted to By the partial kisabess of our professional inethren "ESTABLISH SLAVERY" in Kansas and we are permitted to present to the public the te-timony Nebraska, and "MADE SLAVES furener of all please examine our circuler. children," &c. The insterials are enduring, not being subject to decay; and neither wetness, prolonged to any extent, nor the insert severa least of the sun can decompose it, or cased it in the least to liquify. It is fire and water proof, and its cheapness and the ubliquity of its materials, places it within the reach of every one. We have no doubt if at within three years from this time, its anquestlandale merit will insure its adoption in all the towns in the North-weet, in place of the informabile and expensive materials now in use.—Best detern Garett.
